| GIFTS OF CASH | You may make a cash contribution of any size to an existing fund. This is the easiest and most convenient way to contribute.  
- Gifts  
- Memorials  
- Tributes to specific individuals  
- Interest in specific organizations |
| APPRECIATED PROPERTY | A gift of appreciated stocks, bonds, or real estate may provide important tax benefits. |
| LIFE INSURANCE | Your charitable tax deduction would be the lesser of the cost or the cash value of the policy. If you continue to pay annual premiums, those too are tax deductible. The future benefits to the Foundation would be equal to the face value of the policy. |
| BEQUESTS | Donor’s will provision: in part or in whole would build a legacy realized today. |
| GIFTS FROM AN IRA | If you are required to take an annual disbursement from your IRA and don’t need it, please consider having it directly transferred to the Foundation. If you are 70½ or older, you may transfer up to $100,000 annually to a qualified charitable organization directly, and this amount will be excluded from income of the taxpayer for federal income tax purposes. |

Annual audit information is available at the Jasper Foundation, Inc. office.
This was a milestone year for the Jasper Foundation as the total Foundation assets surpasses $17 million for the first time. The investment portfolio had overall investment gains and income over $850 thousand in the 2016 calendar year.

The investment committee utilizes an investment policy statement (IPS) to drive investment results and manage asset allocation and risk. The committee continually reviews the IPS with the Foundation’s investment advisor to ensure that it is relevant for today’s market environment and that it reflects the needs and objectives of the Foundation. While the IPS may be fine-tuned at any time by the committee, the investment committee and the investment advisor do a comprehensive review and update of the policy no less than every five years.

The chart illustrates the current Foundation investment portfolio allocation compared to the permissible allocation range within the IPS. The portfolio remains well diversified between all major asset classes, primarily utilizing institutional share class mutual funds to obtain the best diversification and the lowest fees. The portfolio remains competitive with other non-profit investment strategies and results.
